FABRIC INDEX

The fabrics we use at Psylo have been chosen with extreme consciousness.
To help you understand better what each fabric is, please refer to the following descriptions…

Rayon
A semi synthetic cellulose fiber mainly made from wood pulp. Also known by the name viscose and art silk.

Modal
A bio-based fiber made with cellulose from beech trees (modal is essentially a variety of rayon).

Spandex
A synthetic fiber known for its exceptional elasticity. It is stronger and more durable than rubber. Also known as elastin or lycra.

Silk chiffon
a lightweight, sheer silky fabric, looks like a fine net or mesh, made out of pure silk.

Slub
Lumps or uneven thickness of yarn, which gives an irregular texture on fabric surface.

Thin cotton modal stretch
45% Cotton 45% Modal 10% Spandex. The combination of these 3 fabrics combined produces a thin, soft fabric with durable elasticity and a velvety touch.

Thick cotton modal stretch
45% cotton 45% modal 10% spandex. Same as above, but a thicker choice of this fabric.

Cotton jersey 50s
100% thin knitted cotton, cotton waffle – woven cotton with a honeycomb texture, the waffle weave offers some thickness and stretch to the fabric, with allowance for air circulation.

Hand knitted fabric 2 x ply
Hand knitted with traditional manual machine, 2 yarn in each knit. Acrylic 73% nylon 27%.

Hand knitted fabric 1 x ply
Same as above, but with 1 yarn in each knit, so it's thinner.

CVC cotton slub double knit
A double layer of internal cotton and external polyester with a slub texture, knitted together. C. 65% P. 35%.

Rib stretch slub
Rib fabric made of rayon 45% cotton 45% spandex 10% with a slub texture to it.

Rayon shiny stretch
90% rayon (processed until shiny) 10% spandex.

Thin cotton pinstripe
100% cotton dobby with a stamped pinstripe texture.

Thin cotton stretch
95% thin cotton foil and 5% spandex

Thick velvet stretch
Cotton CVC with a velvety texture C. 80% P. 20%.

Cotton pointel
Knitted jersey fabric with floral pattern stamped on the surface.

Marvel
100% woven polyester processed for increased softness and shine, like that of a silk satin.

Thin poly net
Thin, soft, synthetic net fabric, a little stretchy with a floral pattern.

Vegan leather
An artificial leather-like finish with some shine to it. We use it for ethical and efficiency reasons, or where the actual leather is cost prohibitive or unsuitable for regular washing.
